STATE HEALTH INSPECTOR INVESTIGATING CONDITIONS

Belle Vernon Wants Permit to Make Sewer Extension

SEWAGE DISPOSAL PLANTS

Charleroi Has Some Matters Which Inspector Will Take Up

H. E. Moses, a representative of the State Health Department, is in this section for a few days in regard to the granting of sewer extension permits. He came here partly to investigate conditions at Belle Vernon and Charleroi, where extensions are desired.

This morning he was at Belle Vernon where the borough wishes to make two extensions, each 400 or 500 feet in length, to connect with sewers to the rivers. Both are on Main street. Mr. Moses was of the opinion that the permits would be granted. The connections are merely a source of temporary relief, inasmuch as it will be necessary to erect a sewage disposal plant within a year or so. This matter is to be taken up in the meantime. The Belle Vernon council feared that their request would be held up on account of the sewage that is now run into the river. Donora got permits for sewer extensions about a week ago after considerable of an effort.

Friday Mr. Moses expects to take up some work here in Charleroi, where some permits for extensions are desired. He said that the suggestion made to the Monessen borough council for the erection of a joint disposal [illegible] merely an idea, and not for any working plan. It is a matter for the authorities to think over however.

In the making of sewer extensions, where it is necessary for connection with sewers to the river permits must be granted by the State Board of Health.

Merchants Have to Drum Up a Quorum

As Result No Business of Importance is Taken up for Action.

There was a Merchant Association meeting last night in the Merchants' room but no business of importance was taken up. This was on account of the fact that there were not enough present, it being necessary to drum up a quorum.

LACK OF CARS CAUSES DELAY

Many Mines Compelled to Close Down for Days at a Time

The statement that the Pennsylvania Railroad company has ordered 10,000 new cars is welcome intelligence to the coal trade. With the return of prosperity and the increasing demand for coal and coke as well as all other traffic, the old, familiar condition, shortage of cars, is everywhere being experienced.

"It is this shortage of cars that prevents entire demoralization of the coal market," remarked a prominent coal operator of the valley a day or two ago while discussing the subject. "But for that there would always be [illegible] in operation are capable of producing far in excess of the demand, if they could always get cars whenever they desire them. It is the car shortage alone that prevents constant overproduction, and restricts in a measure the output. But for that some sort of an agreement would become necessary to curtail production in order to maintain any kind of a living market price.

"President Lewis of the United Mine Workers has suggested a plan that if cars were always available, meets with my favor. This is that all the mines work but five days a week. This would restrict the output, and in all probability insure steadier work for the men. As things now are, we get a rush of orders and work night and day to fill them, and then perhaps while waiting for more orders lay off a while or work half time. By having enough cars to keep a reasonable supply ahead during the slack periods we could be prepared to supply all demands. If ever the supply of cars is equal to the damand in rush times overproduction will keep the market demoralized."

WESTSIDE CARS WILL RUN ON OWN LINES AFTER SATURDAY OF THIS WEEK

New Connections Completed, and Course of Tracks are Altered at Extremity of the Borough

CHANGE MADE NECESSARY BY ERECTION OF BARN

The new connection of the West Side street railways tracks with the Pittsburg Railways company's tracks in North Charleroi, has been made, and the course of the tracks changed somewhat, so that the cars will, beginning on Saturday and continuing thereafter, run on the West Side Railways tracks on Fallowfield avenue.

For many days the Westside company has been using the Pittsburg Railways line in Charleroi, owing to the changes that were being made in the track at North Charleroi and on Lincoln avenue, Charleroi. The new connection which was made is now near where the old trestle of the Charleroi Brick works was. From there the tracks are laid along a new course to reach Lincoln avenue at the boundry between the two boroughs. The change was made by the building of the new street car barn at the northern extremity of Charleroi.

SENATOR GAYLORD WILL SPEAK HERE

Is Well Known as a Platform Lecturer and Has Appeared on Lecture Bureas.

Hon. Winfield R. Gaylord, State Senator from Wisconsin, will lecture at School Hall tomorrow evening at 8 o'clock. His topic is, "Socialists in Action," which is a popular, entertaining and inspirational impulse to "do your own thinking." The lecture is free, and the public is cordially invited to attend.

Senator Gaylord is one of the most talented and popular lecturers on the American forum today. He is a fighter for the principles of right against wrong, and is the sort of stuff that the better Americans are looking for—the La Follett-Folk sort. He was [illegible] Things, incidentally having gone through the schools.

In addition to these sterling qualities, Mr. Gaylord has a keen sense of humor, is an optimist, has a strong face and genuine ring in his laugh. He has played football, was a member of the famous Hesperian Male quartet, has been for years a public speaker and has enough newspaper notices to make a book. He is associated with the Progressive Lyceum Bureau of Milwaukee, and his services as a lecturer are in demand over all the United States.

In addition to the lecture there will be music by the Venetian Orchestra, a vocal solo by Miss Katahrine Collins, "Lotis Serenade."

CALIFORNIA SOCIETY DONATES TO HOME

Give Jellies and Various Other Much Needed Things.

The Deaconess Home of Pittsburg will certainly appreciate the donation that is being prepared for them this week by the California Home Missionary society. As a result of an announcement made in the Methodist Episcopal church last Sunday, the jellies, fruit, butters, pickles and canned goods are coming in from all quarters to the office of Myers and Richardson where they will be packed and sent to the home. The Home Missionary auxiliary of California makes this donation annually and this year it bids fair to being the largest and choicest contribution sent from the upriver town.

MONONGAHELA DOESN'T LIKE NEW SCHDEULE

Thinks Street Car Companies Use Nice Tracks There to Make Up Lost Time.

The motormen of Pittsburg Railways company and head officials have received notice from the Monongahela council, that they must cut down their speed in the borough. According to Monongahela people who made complaints, cars have been sent through there since the new schedule has been inaugurated, at a reckless speed. Monongahela people are not greatly in favor of the new schedule, but consider that if the schedule must remain as it now is, the lost time will have to be made up somewhere else than in their city.

COMMISSIONER DOES NOT FINISH WORK

More Testimony to be Taken in Carroll Township Case.

After spending two whole days, without completing the work of taking testimony in an audit case from Carroll township, Harry W. Cannon, commissioner called an adjournment yesterday until some future time. The case was exceptions granted by the court to a second audit of the accounts of the Carroll township road supervisors, A. J. Fisher, Robert Boyd and Robert W. Scott. The testimony was taken at the office of D. M. McCloskey, Esq., in Charleroi and a large number of witnesses were heard. Williams, McCloskey and McIlvaine represent the taxpayers of Carroll township, who filed the exceptions to the audit, and McIlvaine, Vance and Gibson the supervisors.

Out of the audit case there grew criminal actions against two of the supervisors, Fisher and Boyd, this being settled some months ago. All three supervisors agreed to resign, but the taxpayers were not satisfied with the entire proceedings, and now ask that the case be reopened. The commissioner will appoint a date for the hearing of the remainder of the testimony.

Charleroi Men Visit All Important Glass Centers in Europe

W. A. Miksch, superintendent of the decorating department of the Macbeth-Evans glass company, returned yesterday from a ten week's trip through Europe in company with Supt. H. A. Schnelbach of Crafton of the same company. The tour was in the interests of both business and pleasure, and highly enjoyed by both of the tourists.

Landing in Italy, Naples, Rome [illegible] were visited. At Venice the famous glass manufactories were inspected. From there the tourists went to Austria and visited Vienna, where they had the pleasure of seeing the crown jewels of the empire. In Bohemia they visited Prague, the Teplitz Hot Springs and Haida, the famous glass centre of that country. In Germany Dresden was visited, as well as Penzig, Belin, Leipsic, Jena, Frankfort on the Main, down the river Rhine from Mayence to Cologne, and from there to the mammoth glass plant in St. Lambert, Belgium.

Returning to Paris the tourists spent a week. From there they went to London, and spent four days and then to Southampton where they embarked on the German Lloyd line, the steamship Kaiser Wilhelm, landing in New York on Tuesday.

Menessen Man, According to Jury, Had Sufficient Provocation.

OCCURRED ON AUGUST 29

Wife of Dead Man Tried to Separate Two When They Got Into Fight.

Rocco DeMatteo of Monessen was acquitted by the jury at Greensberg last night, on charge of murder, the man having shot and killed Guinto Toppino, on August 29 at Monessen. The jury was out 11 hours and the verdict was returned late last night. The grounds of acquittal were that the murder had been committed from sufficient provocation and in self defense.

It was brought out at the trial that shorty before the fight that led to the shooting Toppino had gone to his room and secured a razor, drawing this in the subsequent fight with DeMatteo.

The fight which ended in the death of Toppino occurred on Fourteenth street. It is said the men were on bad terms with each other, and when Toppino and his wife were out walking DeMatteo met them and a quarrel ensued. The woman tried to stop the men from fighting, but it is said she was thrown aside by DeMatteo who then shot her husband.

PAUL BURNS COMPANY ABOVE THE AVERAGE

Appear Here for First Time Last Night in Popular Production.

The initial visit of the Paul Burns Stock company of Monessen to the Coyle Theatre in Charleroi last night made a decidedly favorable impression and deserved a better house than was present. The company did itself proud in the creditable and praiseworthy manner in which it presented "A Masquerade." The play is on the musical comedy order, and the company lost not a single opportunity in emphasizing the bright and breezy situations in which the play abounded.

The plot deals with the pranks of a trio of college boys, one of whose aunt is to arrive from Brazil. Two of the boys arrange a lunch in their room with a couple of girls, in which the expected aunt is to be chaperon. She does not arrive, and the third college chap masquerades for her. This role is taken by Paul Burns, the leading comedian of the company, who gets into all sorts of humorous complications.

Miss Paula Burns, the real aunt, is of the "merry widow" type, and plays her role with charming effect, as does also the other feminine members, Misses Lole Francis as Kitty Verdum, Miss Ada Prince as Amy Speetigue, and Miss Nellie Ryan as Ella Delahay. Vic Burns as Fred Wyckham, and Bert Seraphin as Jack Chessney, the two college students, caught the spirit of the situation with telling effect.

Another character that was watched with interest by the audience was that essayed by Frank Furlong of Donora in the role of Brassett, the servant. The others were equally strong. The musical numbers were also highly enjoyed. The company appears again tonight in "A Game of Millions," a five act comedy drama.

SOLLY STROUP WILL BE READY TO MEET ANY FIGHTER HIS WEIGHT IN ABOUT TWO WEEKS

Has Been in Training for Some Time—Recently Returned From Alaska, Where He Enjoyed Title of "Champion."

Solly Stroup, on whom devolves the task of maintaining Charleroi's reputation in pugilistic circles, expects to fight in about two weeks, if plans do not miscarry. He is training hard now, and trying at the same time to arrange a fight with some fast lightweight. At present his eyes are on Joe Getz, who is trying to run away with all kinds of reputations down around Pittsburg. If successful in arranging a match Solly expects to wallop the life out of Getz. The "mill" will be at the Coyle Theatre. Stroup has just returned from Alaska, where he maintained the lightweight championship. He is in good shape for a fight, although a little above weight.

Sunday Observance.

The meeting of the Pennsylvania State Sabbath Association at Washington this week will serve to call attention in this community to the objects and aim of this association. Since the foundation of the Government the proper and reverent observance of Sunday has been a legal requirement wherever organized society has prevailed, and the sentiment ever if based on broader and more liberal lines, is as strong today as it was when the socalled "blue laws" were enacted. No considerable body of the American people anywhere want the observance of Sunday in its reverent sense and religious spirit abolished.

In addition to the observance of Sunday as a day of worship the clergy generally are recognizing the economic value of its observance, and are cooperating with labor organizations along these lines for a suspension of industry on Sunday wherever possible. Every person is better mentally and morally for a day of rest each week, and then it is up to the churches to exert the proper influence as to how the day shall be rationally observed. There is no danger of the observance of Sunday being abolished in America. The people demand this day for their own, and its perversion in spots is but temporary.

The Inaction of Crime.

In an address before the convention of the American Municipal League at Cincinnati Tuesday, A. Leo Weil, the Pittsburg lawyer and foe of graffers, commented upon inaction as a crime. He asserted that those who see crime, know its blighting effect, notice its growth while waiting and watching for some one else to take the initiative, are sanctioning a condition that is criminal complacency.

"Those who condemn 'graft prosecutions because of fear that it will harm the city," he continued, "will bear watching. They place money above morals, policy above purity and complacency above citizenship. Graft is the reward obtained by corrupt agreements with or among municipal authorities or those controlling the same."

What is needed now above all other movements in the line of civic reform is local patriotism. Every American thrills with patriotism when there is talk of his country being assailed by an outside foe. The same sentiment should prevail in connection with the internal enemies in city, county and State. The grafter is a more insidious and dangerous foe than the foreign invader.

A Means of Relief.

It may be surprising intelligence to the public to know that the coal market is governed to a large extent by the supply of railroad cars for shipping. There is always a shortage of cars and this restricts the coal traffic. But for this shortage there would be constant overproduction.

Perhaps if the waterways were sufficiently developed there would be some relief to this state of affairs. As conditions now are more mines are developed than are actually needed in order to procure coal during the rush periods. As a result a large portion of the mines are idle more or less during each year. It seem to be the transportation facilities that are the most serious drawbacks to the coal mining industry, and this deficiency causes extravagance in operation and a waste of natural resources. Develop the waterways and better conditions will prevail.

ELECTRIC SPARKS

If E. F. Acheson gets into the editorial chair down at Pittsburg won't there be some nice times though?

While numerous towns over the State have had much troubled over their sewage disposal, Charleroi has not yet had the matter come up for a serious discussion. Somebody said we had an extra good sewage system anyhow.

Wonder if the "men only" sermons of evangelists were suggested by the common run of burlesque shows.

It is the custom of mobs if a man says he is innocent to tear him to pieces for telling a lie, when any reasonable man would know that if a man would confess at any time it would be at such a time. Rioters may well be classed as anarchists.

People who complain that elevators do not run fast enough, could easy be accommodated by allowing the thing to get loose when it's at the top of a skyscraper, and going to the bottom, of its own free will.

The public is occasionally cautioned against a fake collector. A good many people are willing to believe that every person they owe money is a fake collector.

If you want to get a real knowledge of the real supporters of the liquor cause, you have only to make a list of all those charged with that of about three Washington county papers, then make a list of the true facts, and compare them.

The job of enumerating the census would be a pretty nice one, if there weren't so many foreign and ignorant people.

They are talking of placing football on the list of crimnal assaults in the District of Columbia. That will serve the same way that the law prohibiting baseball in Pennsylvania on Sunday does.

It is said that the Western Union Telegraph company has been been bought out. So far, there has not been any indication of a strike, however.

As a matter of fact, pay day brawls are a common occurrence in Monessen. Surely there is need of some regulation.

DATE OF ENTERTAINMENT CHANGED TO DECEMBER 1

The date of the entertainment to be held by St. Mary's Episcopal church, in which the well known, magician, Robert H. Hartley of Pittsburg will take part, has been changed to December 1 and the place to be the Coyle Theatre. It was originally intended to hold the entertainment at the School Hall on November 30.

A STARTLING STATEMENT

New York Medical Authorities Claim Dyspepsia to be a Predisposing Cause of Consumption.

The post mortem statistics of the big New York hospitals show that some cases of consumption are due, at least indirectly to unchecked dyspepsia, when the victim was predisposed to tuberculosis.

Dyspepsia wears out the body and brain. The weakened, irritable stomach being unable to digest food, the body does not recieve the required nourishment, and the victim becomes thin, weak and haggard. As a result, the body becomes a fertile field in which the germs of disease may lodge and flourish.

Therefore, the person who permits dyspepsia to progress unhindered is guilty of contributing toward the development of one of the most insidious and fatal diseases known to mankind.

Dyspepsia may be completely eradicated if properly treated. We sell a remedy that we positively guarantee will completely relieve indigestion or dyspepsia, or the medicine used during the trial will cost the user nothing.

This remedy has been named Rexall Dyspepsia Tablets. Certainly no offer could be more fair, and our offer should be proof positive that Rexall Dyspepsia tablets are a dependable remedy.

Inasmuch as the medicine will cost you nothing if it does not benefit you, we urge you who are suffering with indigestion or dyspepsia to try Rexall Dyspepsia Tablets. A 25 cent box contains enough medicine for fifteen days' treatment. For chronic cases we have two larger sizes, 50 cents and $1.00. Remember you can obtain Rexall Remedies in Charleroi only at our store—The Rexall Store. John W. Carrol.

SUIT IS BROUGHT AGAINST LILLEY

Brownsville Bank Through Attorney Seeks to Recover on Note.

William C. Lilley, the missing treasurer of the temperance committee of the general assembly of the Pittsburg Presbytery has been made defendant in a suit filed in common pleas court No. 1 by the Second National bank of Brownsville, Pa., to recover $1,000 on a promissory note given by W. H. Graham, together with interest from October 15, 1909, and protest fees of $1.52.

The suit was filed by Attorney George W. Acklin, of Pittsburg, who is acting in behalf of an out-of-town lawyer. The papers in the case allege that June 15, 1909, W. H. Graham gave a promissory note for four months for $1,000 to William C. Lillley at the Second National bank of Brownsville. The note was indorsed by Lilley, who is said to have had it discounted.

October 15, 1909, the date when the note matured, it was presented to Graham, but he failed to honor it. Numerous efforts have since been made, according to the papers filed to day, to collect this money from Graham but as he refuses to pay the bank has instituted suit against Lilley as indorser.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. A Great Moral Forcibly Presented

What a patient and self sacrificing young wife endured for love, is made vividly real in this wonderful story.

An intensely absorbing tale that causes the reader to imagine himself living the part of a character in this word drama of action and life.

This thrilling and most interesting story will commence in the Charleroi Mirror this week, and continue in weekly installments. The play, "Paid in Full," from which this story is novelized, is being presented at the Nixon Theatre in Pittsburg this week, and is making a decided sensation.

MORE PINKHAM CURES

Added to the Long List due to This Famous Remedy.

Camden, N. J.—"It is with pleasure that I add my testimonial to your already long list—hoping that it may induce others to avail themselves of this valuable medicine, Lydia E. Pinkham's Vegetable Compound. I suffered from terrible headaches, pain in my back and right side, was tired and nervous, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound restored me to health and made me feel like a new person, and it shall always have my praise."—MRS. W. P. VALENTINE, 902 Lincoln Avenue, Camden, N. J.

Gardiner, Me.—"I was a great sufferer from a female disease. The doctor said I would have to go to the hospital for an operation, but Lydia E. Pinkham's Vegetable Compound completely cured me in three months."—MRS. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner Me.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

LOCAL NOTES

Brief Mention of People and Events in this Community.

Leslie Campbell, the McKean avenue clothier, made a business trip to Pittsburg yesterday

Mr. and Mrs. A. W. Day of the Hotel Arthur were Pittsburg visitors yesterday attending the Nixon Theatre in the evening.

Mrs. Andrew Hostnick, who has been visiting friends in Germany, returned this week after a most pleasant sojourn in the Fatherland of several weeks.

Prof. Frank R. Huston, who has been here for some weeks assisting in the evangelistic services at the First Christian church, left this morning for Indianapolis, Ind., where he will assist in services.

George W. Dawson transacted business in Donora this morning.

J. F. Bowman of Third street left this morning for Connellsville, being called there by the serious illness of a niece.

D. M. McCloskey, Esq., who was to have lectured before the Young Men's Social Union at St. Mary's Episcopal church tonight, was called to Harrisburg today on an important case. The lecture will therefore be postponed until some future date.

Councilman C. Schmeiler has again embarked in the meat business. He has purchased the market he formerly sold to H. Braun at 333 Fallowfield avenue and took possession Monday. Mr. Schmeiler kills his own meat, and handles the best of products at the lowest possible prices.

To Become Better Acquainted

The Senior Christian Endeavor of the Washington Avenue Presbyterian church is busy arranging a pre-Thanksgiving social, to be held on Friday evening of this week. The social will be for the purpose of giving people a chance to become better acquainted.

Population Doubled.

During the past nine years the population of Carroll township has more than doubled, announces John D. Wickerham, State health inspector, who says that the present population of Carroll township according to his figures is 5,814 while in 1900 when the last census was taken the population was 2,688. He says that 750 children are attending the Carroll township schools.

WHY SALVES FAIL TO CURE ECZEMA

They Clog the Pores—Only a Liquid Can Reach the Inner Skin.

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and can not penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the only standard liquid eczema cure, oil of wintergreen as compounded in D. D. D. Prescription. After ten years of cure after cure, the world's leading skin specialists have accepted this as the true eczema cure.

We ourselves do not hesitate to recommend D. D. D. Prescription at $1.00 a bottle, but for the benefit of those who have never tried the prescription, we have arranged with the D. D. D. Laboratories of Chicago for a special large trial bottle at 25 cents on a special offer now. This first bottle ought to convince every sufferer, and, at any rate, it will surely take away the itch at once.

MAY ATTEND HEARING AT HARRISBURG FRIDAY

Much Interest in Fight That Has Been Started by Breweas.

It is possible that some one from this section will go to Harrisburg Friday to attend the hearing on the ice question. The breweries in this section have taken up the matter of giving free ice to their customers, something that was prevented by an opinion last year given by Attorney General Hampton M. Todd. The brewers are going to fight, for what they consider their rights in the matter, thinking that to give or sell ice is not a real violation of the law. The question was raised in the State in the first place by the Valley Crystal Ice and Storage company of North Charleroi.

He Knew No Fear.

Prince Metternich was driving in Vienna one day during the congress of 1815 when the horses bolted, the carriage was overturned and Metternich was thrown into the roadway. Finding he had no bones broken, he picked himself up and walked quietly away. The same evening he met the king of Naples, who had seen the accident.

"How horribly frightened you must have been," said the king.

"Not at all," answered Metternich. "It is no merit of mine, but I am constitutionally inaccessible to fear."

"It is as I thought," replied the king. "You are a supernatural being."

Seeing is Believing.

Mrs. Brown (to the new maid)—Well, Nora, I hope we shall get along very nicely. I'm not at all difficult to please. Nora—No, mum. That's just what I thought the very minute I set eyes on the master.—London Sketch.

MODERN MARTYRS.

Those Who Entertain, but Who Suffer While Doing It.

"In a periodical the other day," says the amateur philosopher of the Providence Tribune, "I ran across a picture of what had evidently been a musical entertainment or musicale—I took it to have been a musicale for choice.

"The fiddlers had gone, and so had the soloist or soloists and guests. There remained in the foreground the deserted room and a waste of empty chairs, along with the open grand piano.

"The host's head was resting on his arms on a table. The hostess had removed her shoes and was on the verge of collapse. In the background a butler was looking on commiseratingly.

"Now, there's a good deal of that sort of thing first and last the country over. It was true to life, but I never could understand it—that is, nobody has ever explained to me why people who don't enjoy entertaining or being entertained persist in making martyrs of themselves, why anybody does something for pleasure that invariably gives pain?

"A person who puts himself out and wears himself out in the line of duty is comprehensible, but why you should sacrifice yourself when you're pretending to be looking for fun is beyond me.

"The woman who said that her idea of a perfect life from the social point of view would be to be asked everywhere and to go nowhere doubtless expressed the sentiments of thousands, but why go anywhere if you feel that way?"

DIET FOR THE FAT.

Sugar and Starchy Foods to Be Avoided—Juicy Vegetables and Water.

It is popularly believed that all fat persons are gross feeders, but this is not true. Indeed, the reverse is often the case. Obesity may be a disease, or, rather, a prominent symptom of one, the trouble being with the internal chemistry of nutrition—a disease of metabolism, as it is called. It is comparable to diabetes—nearly related to it, in fact. In this disease sugar is formed in excess in the system even when very little is taken with the food, and so in obesity there is a tendency to the formation of fat in the body, even if little fat forming food is eaten. In most cases much can be done by a regulation of the diet.

The amount of meat should not be increased, but the quantity of sugar and starchy foods should be reduced, their place being taken by nonstarchy vegetables, such as spinach, cauliflower and salads. The foods to be avoided or taken in great moderation are those which contain much starch, such as rice and potatoes and all sweets—pies, puddings and candy. Tea and coffee should be taken without sugar if taken at all, and chocolate should be omitted entirely.

Bread is fattening, but for most persons it seems an indispensable article of diet. Its amount can, however, be limited, and it should be toasted.

Fats are less harmful than sugar and starch and may be allowed in moderation in the form of butter and salad oil.

The belief that the drinking of water makes fat is erroneous. If one eats juicy vegetables and especially the less sweet fruits, such as apples and grapefruit, and abandons the use of sugar, there will be a natural reduction in the amount of water taken, but one should drink all that is needed to quench thirst.

Triumphs of Travel.

"Now he's bragging about how he did Venice."

"What do you mean?"

"Most tourists spend a week in Venice. He did it in a day."—Kansas City Journal.

No Excuse.

"Is that horse you bought a kicker?"

"A kicker?" answered Mr. Sirius Barker. "I am the fellow who paid twice his value and who is buying the feed. What has the horse got to kick about?"—Washington Star.

The Greatest Wealth.

Is there any compensation in money for a starved, stunted, dwarfed mind? Can lands and houses, stocks and bonds, pay a man for living a narrow, rutty, sordid life? How much money would match the wealth of a trained mind, of unfolded possibilities? Is the capacity for the appreciation of the meaning of life, of the lessons of civilization, worth no more than one's bread and butter and roof? Can any one conceive of greater possessions than an intellect well trained and disciplined, than a broad, deep, full orbed mind responsive to all beauty, all good?—Orison Swett Marden in Success Magazine.

Optimistic.

"My wife is a very optimistic woman."

"Indeed she is."

"Noticed it, have you?"

"Yes; when I was talking with her yesterday she said that if you ever died she would marry again because she felt sure that she could do better next time."—Houston Post.

An Obliging President.

During a short lived revolution, says Harper's Weekly, there came to be the head of the government in a little Central American republic a man who was above all things courteous and who was, moreover, very anxious to gain the good will of the foreign consuls. One of the latter, having heard that a certain countryman of his had died, addressed a note to the head of the new government, in which he stated that his own government would be grateful for a certificate of death of the individual in question. A few days later the consul received this communication:

Esteemed Senor—I blush to say that I cannot at present comply with your excellency's request for a death certificate of the man named. I sent my soldiers, but he got away, to my shame. I shall use every effort to catch him, however, and hope to send your excellency the desired certificate at an early date.

Needless to say, the consul lost no time in communicating to the obliging president the information that the certificate was undesired, in view of the fact that the individual was able to "get away."

STATE HEALTH INSPECTOR INVESTIGATING CONDITIONS

Belle Vernon Wants Permit to Make Sewer Extension

SEWAGE DISPOSAL PLANTS

Charleroi Has Some Matters Which Inspector Will Take Up

H. E. Moses, a representative of the State Health Department, is in this section for a few days in regard to the granting of sewer extension permits. He came here partly to investigate conditions at Belle Vernon and Charleroi, where extensions are desired.

This morning he was at Belle Vernon where the borough wishes to make two extensions, each 400 or 500 feet in length, to connect with sewers to the rivers. Both are on Main street. Mr. Moses was of the opinion that the permits would be granted. The connections are merely a source of temporary relief inasmuch as it will be necessary to erect a sewage disposal plant within a year or so. This matter is to be taken up in the meantime. The Belle Vernon council feared that their request would be held up on account of the sewage that is now run into the river. Donora got permits for sewer extensions about a week ago after considerable of an effort.

Friday Mr. Moses expects to take up some work here in Charleroi, where some permits for extensions are desired. He said that the suggestion made to the Monessen borough concerning the erection of a joint disposal plan by four of the nearby towns are merely an idea, and not for any working plan. It is a matter for the authorities to think over however.

In the making of sewer extensions, where it is necessary for connection with sewers to the river permits must be granted by the State Board of Health.

Merchants Have to Drum Up a Quorum

As Result No Business of Importance is Taken up for Action.

There was a Merchant Association meeting last night in the Merchants' room but no business of importance was taken up. This was on account of the fact that there were not enough present, it being necessary to drum up a quorum.

LACK OF CARS CAUSES DELAY

Many Mines Compelled to Close Down for Days at a Time

The statement that the Pennsylvania Railroad company has ordered 10,000 new cars is welcome intelligence to the coal trade. With the return of prosperity and the increasing demand for coal and coke as well as all other traffic, the old, familiar condition, shortage of cars, is everywhere being experienced.

"It is this shortage of cars that prevents entire demoralization of the coal market," remarked a prominent coal operator of the valley a day or two ago while discussing the subject. "But for that there would always be overproduction. The mines that are in opertion are capable of producing far in excess of the demand, if they could always get cars whenever they desire them. It is the car shortage alone that prevents constant overproduction, and restricts in a measure the output. But for that some sort of an agreement would become necessary to curtail production in order to maintain any kind of a living market price.

"President Lewis of the United Mine Workers has suggested a plan that if cars were always available, meets with my favor. This is that all the mines work but five days a week. This would restrict the output, and in all probability insure steadier work for the men. As things now are, we get a rush of orders and work night and day to fill them, and then perhaps while waiting for more orders lay off a while or work half time. By having enough cars to keep a reasonable supply ahead during the slack periods we could be prepared to supply all demands. If ever the supply of cars is equal to the damand in rush times overproduction will keep the market demoralized."

WESTSIDE CARS WILL RUN ON OWN LINES AFTER SATURDAY OF THIS WEEK

New Connections Completed, and Course of Tracks are Altered at Extremity of the Borough

CHANGE MADE NECESSARY BY ERECTION OF BARN

The new connection of the West Side street railways tracks with the Pittsburg Railways company's tracks in North Charleroi, has been made, and the course of the tracks changed somewhat, so that the cars will, beginning on Saturday and continuing thereafter, run on the West Side Railways tracks on Fallowfield avenue.

For many days the Westside company has been using the Pittsburg Railways line in Charleroi, owing to the changes that were being made in the track at North Charleroi and on Lincoln avenue, Charleroi. The new connection which was made is now near where the old trestle of the Charleroi Brick works was. From there the tracks are laid along a new course to reach Lincoln avenue at the boundry between the two boroughs. The change was made by the building of the new street car barn at the northern extremity of Charleroi.

SENATOR GAYLORD WILL SPEAK HERE

Is Well Known as a Platform Lecturer and Has Appeared on Lecture Bureas.

Hon. Winfield R. Gaylord, State Senator from Wisconsin, will lecture at School Hall tomorrow evening at 8 o'clock. His topic is, "Socialists in Action," which is a popular, entertaining and inspirational impulse to "do your own thinking." The lecture is free, and the public is cordially invited to attend.

Senator Gaylord is one of the most talented and popular lecturers on the American forum today. He is a fighter for the principles of right against wrong, and is the sort of stuff that the better Americans are looking for—the La Follett-Folk sort. He was educated in the University of Men and Things, incidentally having gone through the schools.

In addition to these sterling qualities, Mr. Gaylord has a keen sense of humor, is an optimist, has a strong face and genuine ring in his laugh. He has played football, was a member of the famous Hesperian Male quartet, has been for years a public speaker and has enough newspaper notices to make a book. He is associated with the Progressive Lyceum Bureau of Milwaukee, and his services as a lecturer are in demand over all the United States.

In addition to the lecture there will be music by the Venetian Orchestra, a vocal solo by Miss Katahrine Collins, "Lotis Serenade."

CALIFORNIA SOCIETY DONATES TO HOME

Give Jellies and Various Other Much Needed Things.

The Deaconess Home of Pittsburg will certainly appreciate the donation that is being prepared for them this week by the California Home Missionary society. As a result of an announcement made in the Methodist Episcopal church last Sunday, the jellies, fruit, butters, pickles and canned goods are coming in from all quarters to the office of Myers and Richardson where they will be packed and sent to the home. The Home Missionary auxiliary of California makes this donation annually and this year it bids fair to being the largest and choicest contribution sent from the upriver town.

MONONGAHELA DOESN'T LIKE NEW SCHDEULE

Thinks Street Car Companies Use Nice Tracks There to Make Up Lost Time.

The motormen of Pittsburg Railways company and head officials have received notice from the Monongahela council, that they must cut down their speed in the borough. According to Monongahela people who made complaints, cars have been sent through there since the new schedule has been inaugurated, at a reckless speed. Monongahela people are not greatly in favor of the new schedule, but consider that if the schedule must remain as it now is, the lost time will have to be made up somewhere else than in their city.

COMMISSIONER DOES NOT FINISH WORK

More Testimony to be Taken in Carroll Township Case.

After spending two whole days, without completing the work of taking testimony in an audit case from Carroll township, Harry W. Cannon, commissioner called an adjournment yesterday until some future time. The case was exceptions granted by the court to a second audit of the accounts of the Carroll township road supervisors, A.J. Fisher, Robert Boyd and Robert W. Scott. The testimony was taken at the office of D. M. McCloskey, Esq., in Charleroi and a large number of witnesses were heard. Williams, McCloskey and McIlvaine represent the taxpayers of Carroll township, who filed the exceptions to the audit, and McIlvaine, Vance and Gibson the supervisors.

Out of the audit case there grew criminal actions against two of the supervisors, Fisher and Boyd, this being settled some months ago. All three supervisors agreed to resign, but the taxpayers were not satisfied with the entire proceedings, and now ask that the case be reopened. The commissioner will appoint a date for the hearing of the remainder of the testimony.

FOREIGNER SAID TO HAVE KILLED ANOTHER ACQUITTED

Menessen Man, According to Jury, Had Sufficient Provocation.

OCCURRED ON AUGUST 29

Wife of Dead Man Tried to Separate Two When They Got Into Fight.

Rocco DeMatteo of Monessen was acquitted by the jury at Greensberg last night, on charge of murder, the man having shot and killed Guinto Toppino, on August 29 at Monessen. The jury was out 11 hours and the verdict was returned late last night. The grounds of acquittal were that the murder had been committed from sufficient provocation and in self defense.

It was brought out at the trial that shorty before the fight that led to the shooting Toppino had gone to his room and secured a razor, drawing this in the subsequent fight with DeMatteo.

The fight which ended in the death of Toppino occurred on Fourteenth street. It is said the men were on bad terms with each other, and when Toppino and his wife were out walking DeMatteo met them and a quarrel ensued. The woman tried to stop the men from fighting, but it is said she was thrown aside by DeMatteo who then shot her husband.

Three Times More Births Than Deaths

Registrar of Vital Statistics, Dr. Edwin McKay, Makes Report.

According to the report of Dr. Edwin McKay, registrar of vital statistics of this district, there were more than three times as many births as deaths in October. His report follows:

Births—Toatal, 39. Charleroi 27; Fallowfield township 10; Twilight 2.

Deaths—Total, 11. Charleroi 8; Fallowfield township 1, Twilight 2.

In September there were a total number of 56 births, to 15 deaths.

Charleroi Men Visit All Important Glass Centers in Europe

W. A. Miksch, superintendent of the decorating department of the Macbeth-Evans glass company, returned yesterday from a ten week's trip through Europe in company with Supt. H. A. Schnelbach of Crafton of the same company. The tour was in the interests of both business and pleasure, and highly enjoyed by both of the tourists.

Landing in Italy, Naples, Rome Venice and Pompeia were visited. At Venice the famous glass manufactories were inspected. From there the tourists went to Austria and visited Vienna, where they had the pleasure of seeing the crown jewels of the empire. In Bohemia they visited Prague, the Teplitz Hot Springs and Haida, the famous glass centre of that country. In Germany Dresden was visited, as well as Penzig, Belin, Leipsic, Jena, Frankfort on the Main, down the river Rhine from Mayence to Cologne, and from there to the mammoth glass plant in St. Lambert, Belgium.

Returning to Paris the tourists spent a week. From there they went to London, and spent four days and then to Southampton where they embarked on the German Lloyd line, the steamship Kaiser Wilhelm, landing in New York on Tuesday.

Back In Charleroi Again.

C. Lawrence Cook, who in July conducted the big furniture sale at Correll and Crowley's and who has since been in Ohio, having charge of sales in large cities, is back in Charleroi again to conduct the big furniture sale at J. Frew's store. He is being heartily welcomed by his numerous friends and acquaintances. Mr. Cook has a reputation as a successful sale conductor.

Beware of unscrupulous dealers and small fry handling second hand furniture, who may try to lure you in their store. Be sure you are at Frew's. Look for the name Frew. Sale conducted by C. Lawrence Co. 79t1

PAUL BURNS COMPANY ABOVE THE AVERAGE

Appear Here for First Time Last Night in a Popular Production,

The initial visit of the Paul Burns Stock company of Monessen to the Coyle Theatre in Charleroi last night made a decidedly favorable impression and deserved a better house than was present. The company did itself proud in the creditable and praiseworthy manner in which it presented "A Masquerade." The play is on the musical comedy order, and the company lost not a single opportunity in emphasizing the bright and breezy situations in which the play abounded.

The plot deals with the pranks of a trio of college boys, one of whose aunt is to arrive from Brazil. Two of the boys arrange a lunch in their room with a couple of girls, in which the expected aunt is to be chaperon. She does not arrive, and the third college chap masquerades for her. This role is taken by Paul Burns, the leading comedian of the company, who gets into all sorts of humorous complications.

Miss Paula Burns, the real aunt, is of the "merry widow" type, and plays her role with charming effect, as does also the other feminine members, Misses Loie Francis as Kitty Verdum, Miss Ada Prince as Amy Speetigue, and Miss Nellie Ryan as Ella Delahay. Vic Burns as Fred Wyckham, and Bert Seraphin as Jack Chessney, the two college students, caught the spirit of the situation with telling effect.

Another character that was watched with interest by the audience was that essayed by Frank Furlong of Donora in the role of Brassett, the servant. The others were equally strong. The musical numbers were also highly enjoyed. The company appears again tonight in "A Game of Millions," a five act comedy drama.

SOLLY STROUP WILL BE READY TO MEET ANY FIGHTER HIS WEIGHT IN ABOUT TWO WEEKS

Has Been in Training for Some Time—Recently Returned From Alaska, Where He Enjoyed Title of "Champion."

Solly Stroup, on whom devolves the task of maintaining Charleroi's reputation in pugilistic circles, expects to fight in about two weeks, if plans do not miscarry. He is training hard now, and trying at the same time to arrange a fight with some fast lightweight. At present his eyes are on Joe Getz, who is trying to run away with all kinds of reputations down [illegible] arranging a match Solly expects to wallop the life out of Getz. The "mill" will be at the Coyle Theatre. Stroup has just returned from Alaska, where he maintained the lightweight championship. He is in good shape for a fight, although a little above weight.

Sunday Observance.

The meeting of the Pennsylvania State Sabbath Association at Washington this week will serve to call attention in this community to the objects and aim of this association. Since the foundation of the Government the proper and reverent observance of Sunday has been a legal requirement wherever organized society has prevailed, and the sentiment ever if based on broader and more liberal lines, is as strong today as it was when the socalled "blue laws" were enacted. No considerable body of the American people anywhere want the observance of Sunday in its reverent sense and religious spirit abolished.

In addition to the observance of Sunday as a day of worship the clergy generally are recognizing the economic value of its observance, and are co-operating with labor organizations along these lines for a suspension of industry on Sunday wherever possible. Every person is better mentally and morally for a day of rest each week, and then it is up to the churches to exert the proper influence as to how the day shall be rationally observed. There is no danger of the observance of Sunday being abolished in America. The people demand this day for their own, and its perversion in spots is but temporary.

The Inaction of Crime.

In an address before the convention of the American Municipal League at Cincinnati Tuesday, A. Leo Weil, the Pittsburg lawyer and foe of gratfers, commented upon inaction as a crime. He asserted that those who see crime, know its blighting effect, notice its growth while waiting and watching for some one else to take the initiative, are sanctioning a condition that is criminal complacency.

"Those who condemn 'graft prosecutions because of fear that it will harm the city," he continued, "will bear watching. They place money above morals, policy above purity and complacency above citizenship. Graft is the reward obtained by corrupt agreements with or among municipal authorities or those controlling the same."

What is needed now above all other movements in the line of civic reform is local patriotism. Every American thrills with patriotism when there is talk of his country being assailed by an outside foe. The same sentiment should prevail in connection with the internal enemies in city, county and State. The greater is a more fatal ious and dangerous foe than the foreign invader.

A Means of Relief.

It may be surprising intelligence to the public to know that the coal market is governed to a large extent by the supply of railroad cars for shipping. There is always a shortage of cars and this restricts the coal traffic. But for this shortage there would be constant overproduction.

Perhaps if the waterways were sufficiently developed there would be some relief to this state of affairs. As conditions now are more mines are developed than are actually needed in order to procure coal during the rush periods. As a result a large portion of the mines are idle more or less during each year. It seems to be the transportation facilities that are the most serious drawbacks to the coal mining industry, and this deficiency causes extravagance in operation and a waste of natural resources. Develop the waterways and better conditions will prevail.

ELECTRIC SPARKS

If E. F. Acheson gets into the editorial chair down at Pittsburg won't there be some nice times though?

While numerous towns over the State have had much troubled over their sewage disposal, Charleroi has not yet had the matter come up for a serious discussion. Somebody said we had an extra good sewage system anyhow.

DATE OF ENTERTAINMENT CHANGED TO DECEMBER 1

The date of the entertainment to be held by St. Mary's Episcopal church, in which the well known, magician, Robert H. Hartley of Pittsburg will take part, has been changed to December 1 and the place to be the Coyle Theatre. It was originally intended to hold the entertainment at the School Hall on November 30.

A STARTLING STATEMENT

New York Medical Authorities Claim Dyspepsia to be a Predisposing Cause of Consumption.

The post mortem statistics of the big New York hospitals show that some cases of consumption are due, at least indirectly to unchecked dyspepsia, when the victim was predisposed to tuberculosis.

Dypspesia wears out the body and brain. The weakened, irritable stomach being unable to digest food, the body does not recieve the required nourishment, and the victim becomes thin, weak and haggard. As a result, the body becomes a fertile field in which the germs of disease may lodge and flourish.

Therefore, the person who permits dyspepsia to progress unhindered is guilty of contributing toward the development of one of the most insidious and fatal diseases known to mankind.

Dyspepsia may be completely eradicated if properly treated. We sell a remedy that we positively guarantee will completely relieve indigestion or dyspepsia, or the medicine used during the trial will cost the user nothing.

This remedy has been named Rexall Dyspepsia Tablets. Certainly no offer could be more fair, and our offer should be proof positive that Rexall Dyspepsia tablets are a dependable remedy.

Inasmuch as the medicine will cost you nothing if it does not benefit you, we urge you who are suffering with indigestion or dyspepsia to try Rexall Dyspepsia Tablets A 25 cent box contains enough medicine for fifteen days' treatment. For chronic cases we have two larger sizes, 50 cents and $1.00. Remember you can obtain Rexall Remedies in Charleroi only at our store—The Rexall Store. John W. Carrol.

SUIT IS BROUGHT AGAINST LILLEY

Brownsville Bank Through Attorney Seeks to Recover on Note.

William C. Lilley, the missing treasurer of the temperance committee of the general assembly of the Pittsburg Presbytery has been made defendant in a suit filed in common pleas court No. 1 by the Second National bank of Brownsville, Pa., to recover $1,000 on a promissory note given by W. H. Graham, together with interest from October 15, 1909, and protest fees of $1.52.

The suit was filed by Attorney George W. Acklin, of Pittsburg, who is acting in behalf of an out-of-town lawyer. The papers in the case allege that June 15, 1909, W. H. Graham gave a promissory note for four months for $1,000 to William C. Lillley at the Second National bank of Brownsville. The note was indorsed by Lilley, who is said to have had it discounted.

October 15, 1909, the date when the note matured, it was presented to Graham, but he failed to honor it. Numerous efforts have since been made, according to the papers filed today, to collect this money from Graham but as he refuses to pay the bank has instituted suit against Lilley as indorser.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials

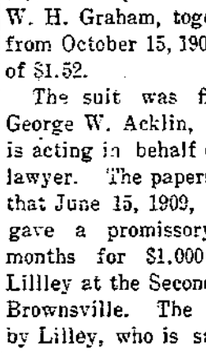
MORE PINKHAM CURES

Added to the Long List due to This Famous Remedy.

Camden, N.J.—"It is with pleasure that I add my testimonial to your already long list—hoping that it may induce others to avail themselves of this valuable medicine, Lydia E. Pinkham's Vegetable Compound. I suffered from terrible headaches, pain in my back and right side, was tired and nervous, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound restored me to health and made me feel like a new person, and it shall always have my praise."—Mrs. W. P. VALENTINE, 902 Lincoln Avenue, Camden, N. J.



Gardiner, Me.—"I was a great sufferer from a female disease. The doctor said I would have to go to the hospital for an operation, but Lydia E. Pinkham's Vegetable Compound completely cured me in three months."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

A Great Moral Forcibly Presented

What a patient and self sacrificing young wife endured for love, is made vividly real in this wonderful story.

An intensely absorbing tale that causes the reader to imagine himself living the part of a character in this word drama of action and life.

This thrilling and most interesting story will commence in the Charleroi Mirror this week, and continue in weekly installments. The play, "Paid in Full," from which this story is novelized, is being presented at the Nixon Theatre in Pittsburg this week, and is making a decided sensation.

WHY SALVES FAIL TO CURE ECZEMA

They Clog the Pores—Only a Liquid Can Reach the Inner Skin.

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases, but it has been found that these salves only clog the pores and can not penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the only standard liquid eczema cure, oil of wintergreen as compounded in D. D. D. Prescription. After ten years of cure after cure, the world's leading skin specialists have accepted this as the true eczema cure.

We ourselves do not hesitate to recommend D. D. D. Prescription at $1.00 a bottle, but for the benefit of those who have never tried the prescription, we have arranged with the D. D. D. Laboratories of Chicago for a special large trial bottle at 25 cents on a special offer now. This first bottle ought to convince every sufferer, and, at any rate, it will surely take away the itch at once.

Much Interest in Fight That Has Been Started by Breweas.

It is possible that some one from this section will go to Harrisburg Friday to attend the hearing on the ice question. The breweries in this section have taken up the matter of giving free ice to their customers, something that was prevented by an opinion last year given by Attorney General Hampton M. Todd. The brewers are going to fight, for what they consider their rights in the matter, thinking that to give or sell ice is not a real violation of the law. The question was raised in the State in the first place by the Valley Crystal Ice and Storage company of North Charleroi.

He Knew No Fear.

Prince Metternich was driving in Vienna one day during the congress of 1815 when the horses bolted, the carriage was overturned and Metternich was thrown into the roadway. Finding he had no bones broken, he picked himself up and walked quietly away. The same evening he met the king of Naples, who had seen the accident.

"How horribly frightened you must have been," said the king.

"Not at all," answered Metternich. "It is no merit of mine, but I am constitutionally inaccessible to fear."

"It is as I thought," replied the king. "You are a supernatural being."

Seeing Is Believing.

Mrs. Brown (to the new maid)—Well, Nora, I hope we shall get along very nicely. I'm not at all difficult to please. Nora—No, mum. That's just what I thought the very minute I set eyes on the master.—London Sketch

MODERN MARTYRS.

Those Who Entertain, but Who Suffer While Doing It.

"In a periodical the other day," says the admirable philosopher of the Providence Tribune, "I ran across a picture of what had evidently been a musical entertainment or musicale—I took it to have been a musicale for choice.

"The fiddlers had gone, and so had the soloist or soloists and guests. There remained in the foreground the deserted room and a waste of empty chairs, along with the open grand piano.

"The host's head was resting on his arms on a table. The hostess had removed her shoes and was on the verge of collapse. In the background a butler was looking on commiseratingly.

"Now, there's a good deal of that sort of thing first and last the country over. It was true to life, but I never could understand it—that is, nobody has ever explained to me why people who don't enjoy entertaining or being entertained persist in making martyrs of themselves, why anybody does something for pleasure that invariably gives pain?

"A person who puts himself out and wears himself out in the line of duty is a martyr, but who can [illegible] sacrifice yourself when you're pretending to be looking for fun is beyond me.

"The woman who said that her idea of a perfect life from the social point of view would be to be asked everywhere and to go nowhere doubtless expressed the sentiments of thousands, but why go anywhere if you feel that way?"

DIET FOR THE FAT.

Sugar and Starchy Foods to Be Avoided—Juicy Vegetables and Water.

It is popularly believed that all fat persons are gross feeders, but this is not true. Indeed, the reverse is often the case. Obesity may be a disease, or, rather, a prominent symptom of one, the trouble being with the internal chemistry of nutrition—a disease of metabolism, as it is called. It is comparable to diabetes—nearly related to it, in fact. In this disease sugar is formed in excess in the system even when very little is taken with the food, and so in obesity there is a tendency to the formation of fat in the body, even if little fat forming food is eaten. In most cases much can be done by a regulation of the diet.

The amount of meat should not be increased, but the quantity of sugar and starchy foods should be reduced, their place being taken by nonstarchy vegetables, such as spinach, cauliflower and salads. The foods to be avoided or taken in great moderation are those which contain much starch, such as rice and potatoes and all sweets—pies, puddings and candy. Tea and coffee should be taken without sugar if taken at all, and chocolate should be omitted entirely.

Bread is fattening, but for most persons it seems an indispensable article of diet. Its amount can, however, be limited, and it should be toasted.

Fats are less harmful than sugar and starch and may be allowed in moderation in the form of butter and salad oil.

The belief that the drinking of water makes fat is erroneous. If one eats juicy vegetables and especially the less sweet fruits, such as apples and grapefruit, and abandons the use of sugar, there will be a natural reduction in the amount of water taken, but one should drink all that is needed to quench thirst.

Triumphs of Travel.

"Now he's bragging about how he did Venice."

"What do you mean?"

"Most tourists spend a week in Venice. He did it in a day."—Kansas City Journal.

No Excuse.

"Is that horse you bought a kicker?"

"A kicker?" answered Mr. Sirius Barker. "I am the fellow who paid twice his value and who is buying the feed. What has the horse got to kick about?"—Washington Star.

The Greatest Wealth.

Is there any compensation in money for a starved, stunted, dwarfed mind? Can lands and houses, stocks and bonds, pay a man for living a narrow, rutty, sordid life? How much money would match the wealth of a trained mind, of unfolded possibilities? Is the capacity for the appreciation of the meaning of life, of the lessons of civilization, worth no more than one's bread and butter and roof? Can any one conceive of greater possessions than an intellect well trained and disciplined, than a broad, deep, full orbed mind responsive to all beauty, all good?—Orison Swett Marden in Success Magazine.

Optimistic.

"My wife is a very optimistic woman."

"Indeed she is."

"Noticed it, have you?"

"Yes; when I was talking with her yesterday she said that if you ever died she would marry again because she felt sure that she could do better next time."—Houston Post.

An Obliging President.

During a short lived revolution, says Harper's Weekly, there came to be the head of the government in a little Central American republic a man who was above all things courteous and who was, moreover, very anxious to gain the good will of the foreign consuls. One of the latter, having heard that a certain countryman of his had died, addressed a note to the head of the new government, in which he stated that his own government would be grateful for a certificate of death of the individual in question. A few days later the consul received this communication:

Excellency Senor—I blush to say that I cannot at present comply with your excellency's request for a death certificate of the man named. I sent my soldiers, but he got away, to my shame. I shall use every effort to catch him, however, and hope to send your excellency the desired certificate at an early date.

Needless to say, the consul lost no time in communicating to the obliging president the information that the certificate was undesired, in view of the fact that the individual was able to "get away."

To every woman in our city

Not every night, but often, you feel tired, worn out, as though you didn't have strength to do another thing.

Have you ever stopped to think "What is the cause?"

You feel this way most when you have been on your feet most, the days when you have stood or walked a good deal.

In nine cases out of ten, SHOES are responsible.

Let us fit you in the Red Cross Shoe. It entirely prevents the burning, drawing and aching that stiff soles cause. It is wonderful how it saves your strength.

Tanned by the special Red Cross process, the sole is flexible, it bends with your foot, relieves all the pressure on the delicate nerves and tendons, giving a feeling of freedom, ease and comfort found in no other shoe.

Let us fit you.

PATTI'S EARNINGS.

The Famous Prima Donna a Fine Business Woman.

Adelina Patti never suffered from the financial timidity of a Jenny Lind. Not only was she a supreme vocalist, but, as Colonel Mapleson remarked, "No one ever approached her in the art of obtaining from a manager the greatest possible sum he could by any possibility contrive to pay." But the musical miracle was the spoiled darling of her day, and she never failed to obtain exactly what she wanted. She was first engaged in London, in 1861, by Mapleson, to sing four nights "on approval" and, in case of success, to obtain £40 a week. This contract was not fulfilled, however, for, being hard pressed financially, she had borrowed £50 from a rival manager, and her receipt proved practically a contract.

This was the beginning of a career so dazzling that its successive steps are simply a series of increasing banknotes. In 1872 she obtained in London 200 guineas a night, since she insisted on having more than Christine Nilsson, who was receiving £200. She sang twice a week. Ten years later she was given $5,000 a night. Her famous contract to sing in America provided that the money should be paid to her at 2 o'clock on the day she sang; also a drawing room and sleeping car to be especially built for her, with conservatory, fernery, etc. Further, there was to be deposited to her credit $50,000 for payment of the last ten performances—Patti's favorite device. She thus received about twenty times what Mario and Grisi got.

Her private car, incidentally, cost $60,000 and contained a silver bath and gold keys to the doors, to say nothing of a $2,000 piano. Patti gave to the manager only her voice and her costumes. Her drawing capacity justified this. "Lucia," as an example was sung to an average of $14,000. "Traviata" drew more, since she sang more notes. It was a frequent occurrence among the poorer music lovers to buy a club ticket and each take turns at hearing her for twenty minutes. If one overstayed his time he paid for the entire ticket. Some mathematicians computed by dividing the number of notes sung into the sum paid that in "Semiramide" Patti received 42⅝ cents for each note. This was found to be just 7 1-10 cents per note more than Rossini got for writing the whole opera.

HOW AUTHORS WROTE.

Pope Thought Best When In Bed—Victor Hugo Wrote Standing.

Alexander Pope, who was the literary pontiff of his time, thought best when in bed. Whenever a thought came to him he would jot it down on a scrap of paper. His servant often found bedclothes and floor covered with white bits containing aphorisms which have now become hackneyed quotations.

Victor Hugo wrote "Les Miserables" standing up, an attitude which Hawthorne also assumed when he wrote many of his romances.

One leg thrown over the arm of a chair or sitting on the arm of his secretary's chair were Napoleon's favorite positions while dictating to Bourrienne, a position which he varied now and then by patting that scribe on the head or pulling his ears.

Sir Walter Scott could while reclining on a lounge dictate to two amanuenses, who frequently had to stop writing, so funny the dictated passages seemed to them.

Balzac, in a monk's robe, frequently wrote from midnight till noon, taking drafts of strong coffee when drowsiness attacked him and thus shortening his life by many years, no doubt.

William Morris made one of his famous translations from the Greek while riding on the steam cars. Walt Whitman and Horace Traubel, original in all things, were most original in the position they took while thinking. They were wont, so Mr. Traubel says, to climb upon a pile of lumber and lie down upon their backs. In that way each found out what the other's best thoughts were.—Boston Globe.

Authors Favor Suffrage.

It is very evident that suffrage is in favor among the best known authors of America, men and women, from the list of names on the national petition for woman suffrage, which includes Mark Twain, William Dean Howells, Sarah Orne Jewett, Frances Hodgson Burnett, Elizabeth Stuart Phelps Ward, Booth Tarkington, Julia Ward Howe, Charlotte Perkins Gilman, Alice Brown, General Charles King, Eliza Calvert Hall, Dorothy Dix, Olive Tilford Dargan, Florence Morse Kingsley, Helen Campbell, Ernest Harold Baynes, Frederick A. Ober, Marietta Holley, James Lane Allen, Charles Battell Loomis, Ernest Thompson Seton, Grace Gallatin Thompson Seton, David Graham Phillips, Louise Imogen Guiney, Edith Sessions Tupper, Brand Whitlock, Agnes C. Laut, Edward S. Ellis, Lida A. Churchill, Hamlin Garland, Professor Edward Howard Griggs, Anna Randall Diehl, Julian Hawthorne, Charles Edward Russell, Frederic C. Howe, W. H. Ghent, Robert Hunter and Jane Addams.

Glaciers.

It has been demonstrated that the glacier does not move in one block, but flows, accommodating itself to the channel in which it moves. Professor Tyndall planted a row of sticks in a straight line across a glacier, and after a few days the line had become a crescent, with the concavity upward, showing that the middle of the glacier moved faster than the sides, just as in a river the stream is stronger in the center.
